

Primed To Clean

Prime Line

Multipurpose and Utensils Washers

The new Prime Line

WHY CHOOSING COMENDA PRIME LINE MULTIPURPOSE WASHERS

Durable and reliable, our Prime Line utensil and multipurpose washers are designed to remove the most stubborn stains, granting an uncompromise clean for every type of crockery: cutlery, kitchen utensils, trays and baking pans.

Developed for Pastry & Bakeries, butcheries and quick restaurants, ensure maximum performance and reduce your operating costs.

OUTSTANDING RESULTS

Stainless steel rotating upper and lower wash and rinse arms guarantee excellent results.

FLEXIBILITY

The **500x600** mm rack allows you to wash dishes, trays, pot & pans and bulky containers.

HYGIENE

Equipped with a triple filtration system designed to continually capture and remove particulate matter with no need for draining down the tank during the cycle.

RELIABILITY

The RCD (Rinse Control Device) ensures that consistent water pressure is applied during the rinse phase.

ERGONOMICS

The intuitive user design features clear cycle monitoring, colour-coded status indicators as well as four different programming options for washing cycles (Eco Fast, Glasses, Dishes and Intensive).

Stainless steel
rotating wash and
rinse arms.
Standard

- Single skin body steel stainless AISI 304
- Molded double skin insulated door
- Built-in rinse aid dosing pump
- Provision for detergent dosing pump connection

Optional

- Drain Pump
- Detergent dosing pump
- Base stand C/W door and adjustable feet.

** The theoretical output refers to the unit connected to 55 °C incoming water temperature and max total installed power.

*** Optional. 60 racks/h max output with 7 kW boiler heating element.
